Extenda-Barrier™

STRAP LENGTHS

Extenda-Barrier is standard with a 7 foot long strap and Extenda-Barrier XL is standard with a 12 foot long strap.

CUSTOM IMPRINTED STRAPS

The message of your choice and/or a logo in the color of your choice can be applied to one or both sides of each strap.

UNIVERSAL 4-WAY HEAD

Each Extenda-Barrier™ Head is equipped with either a Durable 7' or a 12' 100% Nylon Strap. Every head has three receptor channels that receive and secure straps from other Extenda-Barrier™ posts or Extenda-Barrier™ wall mounted units.

SIGN FRAMES AND ADAPTORS

A full selection of post mounted sign frames, sign holders, and custom signs are available. All adaptors securely mount to the top of the post with recessed screws to prevent theft and accidental removal. Many sign units feature a rotating adaptor so that the sign can face the direction that will be most effective.

STRAP SAFETY DEVICE

All Glaro Extenda-Barrier™ Units have a Slow Retracting, Centrifugal Breaking Mechanisms to prevent the strap from retracting too forcefully. Therefore, the risk of injury is eliminated and the dangerous slingshot operation of straps without safety brakes on non-Glaro products is easily avoided.

OPTIONAL LOCKING DEVICE

In areas where small children are prevalent or where it is desired that changes not be readily made by visitors, the Optional Safety Locking Device prevents unauthorized removal of the strap, providing a greater degree of safety and security.

OUTSTANDING CUSTOMER SERVICE Our staff is second to none when providing our customers with the products and services they deserve. We are sincerely interested in your product and service requirements. It is no surprise that the vast majority of our current customers have purchased, with satisfaction, our products in the past.

QUICK SHIP and SERVICE Speed of shipment is a top priority throughout the Glaro facility. Almost every order is shipped within 24 to 48 hours. Freight is handled by performance rated transporters with a proven record for safe and on time delivery at competitive prices. Posts are shipped KD which substantially reduces freight costs and damages.

BUILT SOLID, BUILT STRONG Glaro takes great pride in manufacturing truly durable products intended to last for years and years. Our engineers and designers understand how abusive public places can be. We use the heavy gauge metals and tough finishes that are easy to maintain and stand up to these kinds of demands.

INDOOR/OUTDOOR USE With the exception of the mirror brass and mirror chrome finishes all Glaro posts have been proven to be ideal for outdoor as well as indoor use. Even our specially formulated satin brass finish will never rust or tarnish.

Queue Control Systems

Features & Benefits

Includes a Solid Metal Crown in either Traditional Style or Ball Top

Solid Metal, Universal "4 Way" Ring Can Accept Ropes from Any Angle

Heavy Gauge Metal Tubing Withstands Years of Use

Internal Thru-bolted Construction to Insure Strength of Assembly

Hand Spun Solid Aluminum Covers the Base and is Rolled Under to Protect the Floor

Heavy Base Weighted with Solid Steel for Maximum Stability

Traditional Posts

ELEGANT DESIGNS

Whether you select a ball top design or a standard crown, a bell shaped or flat style base your post will make an elegant appearance while providing an important function of organizing and guiding visitors in a traditional or contemporary setting.

FOUR WAY HOOK RINGS

Four way hook rings providing for multi-directional barrier ropes to be attached are standard at the top of every Glaro post.

ROPE

Luxurious upholstered 1 1/2" diameter solid cotton core traditional barrier ropes are available in a large variety of fabrics and colors. Glaro Nyvel is a 100% nylon velour that cannot dry rot and resists fading more than any competitive velour product.

SIGN FRAMES AND HOLDERS

Provide the signs that guide and inform visitors. A variety of Glaro sign equipment is available and all have a "2 point" mounting to the hook ring. This is the most durable, long lasting, and firm attachment of the signage needed to direct visitors. Custom signs are available for every message.

SNAP ENDS FOR ROPE

Only the finest hand polished solid brass castings are used on Glaro rope to provide service free performance for years to come.

STABILITY OF POSTS AND UNIQUE BASE

CONSTRUCTION Glaro bases are more stable than any other brand post due to the full 14" diameter base design, and heavy weight in most of our bases. They will resist tipping more than all other posts available. Glaro bases are heavily weighted with solid steel, that can neither easily rust, crack, or shift like cast iron, concrete, or sand. The bottom of each base has a rust proof powder coat finish that is baked on. The outer covering of the base not only covers the top and sides but is rolled under the bottom to stiffen the base and protect floors. An optional full vinyl corrugated pad can be attached for more extreme situations. Permanent and socket mountings for posts are also available.

ADA REQUIREMENTS AND CUSTOM POSTS

Custom height posts to meet ADA regulations or for exhibits are readily available. ABS base covers are in stock for all 14" diameter posts. Metal finishes may be mixed with any of our 27 powder coat colors. Please inquire.

VARIETY and COMPLEMENTARY PRODUCTS

A full selection of designs and finishes are available to meet the needs of every décor and location. In addition, Glaro manufactures coordinated and matching companion lines of products most often used in the same or nearby areas of the facility.

EXTENDA-BARRIER POSTS with 7' STRAPS

Crowd Control Systems

Extenda-Barrier™ 7 Foot Crowd Control Posts

- Heaviest Posts in the Industry
- Slow Retracting Safety Straps
- 7 Foot Strap
- 4 Attractive Metal Finishes
- 27 Designer Finishes
- Quick Ship
- Custom Heights Available

Seen worldwide, these posts are almost synonymous with the concept of crowd control systems.

The patented, spring-activated barrier straps always extend or retract perfectly to fit the exact distance between posts, creating a neat, uniform and organized appearance. The concealed (patented) breaking mechanism buffers the retraction of the internal spring, allowing these units to be safely placed anywhere, even in areas where there are small children. These posts are essential in ALL public places where guiding the movement of people, in a dignified manner, is desirable.

This versatile system offers unlimited flexibility because you can modify and reconfigure your system easily and at any time. As with all Glaro products, these Crowd Control Posts are designed to coordinate perfectly with all other Glaro products. They are in stock and ready for immediate shipment.

Extenda-Barrier XL™ Crowd Control Posts

12 FOOT!

Extenda-Barrier

XL™

Extra Long! Extra Strong!

Durable Extenda-Barrier™ posts with slow retractable Nylon straps now come in **TWO** great sizes. The 12' **EXTRA LONG** strap is cost effective, as fewer posts are needed while still efficiently creating a security barrier that will neatly guide visitors.

Wall receptors allow you to attach a strap to a wall or other vertical surface. Heavy duty sign holders display your message effectively and complete your system. See pages 44 & 45 for more details.

Crowd Control Systems

Traditional Crowd Control Post

Elegant & Classic

This Crowd Control System includes designs for use in upscale contemporary as well as traditional settings.

These posts and plush ropes are an ideal way to guide the movement of people in a dignified and elegant manner. Our deluxe

posts feature maximum stability by using an extra heavy, low profile base. They have a hand crafted cover that is rolled under to help protect floors. The heavy gauge, large dia-meter upright tube is complete with either a traditional Glaro crown or an elegant Mirror Brass Ball Top. Both have a universal 4-way hook ring that accepts line ropes from any direction. Glaro's

Traditional Crowd Control Posts are perhaps the sturdiest, most durable and best looking posts manufactured in America today.

As with all Glaro products, these Crowd Control Posts are designed to coordinate perfectly with all other Glaro products and are in stock ready for immediate shipment.

Crowd Control Systems

Safety / Security Barriers & Signage

PRE-PRINTED SILK SCREEN SIGN PANELS

Portable Public Deterrents

These Crowd Control Systems offer maximum effectiveness due to their unmistakably high visibility. The Bright Safety Yellow combined with Stark Black, provides high contrast that relays an instant cautionary message. The all weather, high impact textured ABS base is heavily weighted with solid steel for maximum stability.

Choose the Extenda-Barrier Posts featuring retractable straps up to 12' long, if your needs vary frequently. Our Traditional Posts are Ideal for more permanent applications. Our Loop Crown Posts are the perfect, economical solution because our 1/2" plastic rope can be "Looped" through post after post. The posts can be situated further apart, so fewer posts are needed. Large areas can be protected at a minimum cost.

Highly visible signage adds a precise message to your system. Standard messages and any type of custom signs are available. Call for details. Bright Yellow Plastic Sign Panels are Silk Screened with Black Ink, for clear Cautionary Messages. Radius Corners are supplied with signs to be used with Sign Holders F72. Holes may be drilled in the sign panels for hanging upon request.
